### PRODUCT

The Alva Club Chair is the apple of our eye. Its striking form and unique details make it a stunner. The linear tufted back is finished with cast hexagonal metal tufting buttons, a signature of this special piece.

### COLLECTION

Brightliner was designed by AvroKO to transport visitors in a similarly functional yet sophisticated fashion. Crafted by Stellar Works, Brightliner takes guests back to NYC's most elegant of eras, thanks to the iconic silhouettes and sleek curvatures of this collection. With nods to Manhattan's eccentric energy, each furniture design embodies a sense of thrill completely unique to the world below 14th street.

### DESIGNER

AvroKO is celebrating 20 years of hospitality design in 2021. Their designs for restaurants, hotels, marketplaces and residential buildings have been celebrated around the world. With their headquarters in NYC, as well as offices in SF, London and Bangkok, they've managed to design projects across the globe. Their holistic approach has resulted not only in the design of spaces, logos, and menu's, but has consistently relied on custom designed furniture and lighting. The Brightliner collection started with chairs and tables designed specifically for the 3 Michelin starred Single Thread Restaurant and Inn, and includes additional products designed for their own restaurant Saxon and Parole as well as some additional beauties. They've been honored with awards ranging from the Gold Key to 3 James Beard awards and been named Design Firm of the year by both Boutique Design Magazine and Stellar Works' production techniques are inspired by the long-standing industry of traditional cultures, and represent a commitment to bridging the gap between old and new — in attitude, form and application. It infuses freshness into heritage and grounds innovation with enduring craftsmanship.

## PRODUCT

SPC bed is the apple of our eye. Its striking form and unique details make it a stunner. The linear tufted back is finished with cast hexagonal metal tufting buttons, a signature of this special piece.

## COLLECTION

SPC bed was designed by Space Copenhagen to transport visitors in a similarly functional yet sophisticated fashion. Crafted by Stellar Works, It takes guests back to NYC's most elegant of eras, thanks to the iconic silhouettes and sleek curvatures of this collection. With nods to Manhattan's eccentric energy, each furniture design embodies a sense of thrill completely unique to the world below 14th street.

## DESIGNER

Established in 2005 by Signe Bindslev Henriksen and Peter Bundgaard Rützou, Space Copenhagen is a design studio works across multiple disciplines from furniture, lighting and refined objects, to art installations, art direction and interior design for private homes, hotels and restaurants all over the world. The studio call the approach Poetic Modernism. Their ambition is to forge new paths by balancing opposites — classic and modern, industrial and organic, sculptural and minimal, light and shade. Duality and contrast. Curiosity as a fundamental human condition. The studio's intuitive approach embodies designs that are distinctively shaped by the given circumstances, functional needs, and a fundamental interest in human behavior. It is a sense of and belief in slow aesthetic that centers quality and longevity. Space Copenhagen has created lauded furniture pieces for some of the world's leading manufacturers such as GUBI, Stellar Works, Fredericia Furniture, & Tradition and Mater. In addition, Space Copenhagen continuously substantiates their roster of high-end interiors at an international level, following, among others, their award-winning design for 11 Howard in New York, The Stratford opening in London Spring 2019 along with acclaimed destination restaurants Geranium and the first Noma in Copenhagen.
